Professor(s): [J. Calahan](#), [A. Nelson](#), [J. Pierce](#), [P. Sudman](#)

Associate Professor(s): [K. Murray](#), [R. Pfau](#), [H. Rathburn](#), [M. Sanderford](#)

Assistant Professor(s): [C. Higgins](#), [J. Specschock](#)

Instructor(s): [S. McReynolds](#)

The Department of Biological Sciences offers two distinct four-year curricula that lead to the baccalaureate degree. These are the Bachelor of Science in Biology and the Bachelor of Science in Biomedical Science. In addition, Pre-Health professional programs are offered which include Pre-Medicine, Pre-Dentistry, Pre-Physical Therapy, Pre-Pharmacy, and Pre-Veterinary Medicine. Secondary teaching certificates may be obtained with Science Certification or Life Science Certification. The curricula are designed to maximize career opportunities and to prepare students for various graduate and professional school programs.

A Master of Science degree is also offered. For further information, see the graduate section of this catalog.
