

Animal Science

201-3 Avian Science. (2-2) An introduction to the study of birds, their structure, physiology, reproduction, ecology and behavior. Relates gamebird production and biology to basic ornithological principles. Laboratory covers production of gamebirds from conception and incubation to marketing and sales. Gamebirds studied are various quail, pheasant, partridge, and wild turkey species. Credit for both WLDM 201 and ANSC 201 will not be awarded. Course fee \$10. Prerequisite Course(s): Sophomore classification or approval of the department head.

In course descriptions, the digit following the course number is the number of semester credit hours. For example, ENGL 111-3 is a freshman level course worth 3 semester hours of credit. The numbers in parentheses following the course number (for example, 3-2) indicate the number of clock hours per week devoted to theory and practice, respectively. (WI) indicates that sections of this course will be offered as writing intensive.
