

Animal Science

213-3 Horse Psychology and Training. (2-2) Principles of breaking and training young horses, training techniques, basic anatomy, recognition of unsoundness and defects, and corrective techniques. Lab fee \$4. Prerequisite Course(s): ANSC 109: Introduction to Horse Production

In course descriptions, the digit following the course number is the number of semester credit hours. For example, ENGL 111-3 is a freshman level course worth 3 semester hours of credit. The numbers in parentheses following the course number (for example, 3-2) indicate the number of clock hours per week devoted to theory and practice, respectively. (WI) indicates that sections of this course will be offered as writing intensive.
