

## Animal Science

**405-3 Anatomy and Physiology of Farm Animals. (3-0)** Introduction to comparative anatomy and physiology of farm animals. The roles of the various systems of the animal body will be studied with practical applications made to animal production. Prerequisite Course(s): ANSC 107: General Animal Science or equivalent and junior classification.

---

In course descriptions, the digit following the course number is the number of semester credit hours. For example, ENGL 111-3 is a freshman level course worth 3 semester hours of credit. The numbers in parentheses following the course number (for example, 3-2) indicate the number of clock hours per week devoted to theory and practice, respectively. (WI) indicates that sections of this course will be offered as writing intensive.
