

## Environmental Science

**510-3 Environmental Geology. (3-0)** Explores the physical controls geology imparts to the global ecosystem through systems analysis of geologic processes. Hydrologic processes, river system processes and restoration, energy resources, coastal systems, and karst systems are all potential topics explored. Credit for both ENVS 510 and GEOL 510 will not be awarded. Prerequisite Course(s): GEOL 105: Physical Geology or consent of department head.

---

In course descriptions, the digit following the course number is the number of semester credit hours. For example, ENGL 111-3 is a freshman level course worth 3 semester hours of credit. The numbers in parentheses following the course number (for example, 3-2) indicate the number of clock hours per week devoted to theory and practice, respectively. (WI) indicates that sections of this course will be offered as writing intensive.
