

Environmental Science

528-3 Environmental Literacy. (3-0) Scientific, social, business, and educational aspects of environmental topics, to include biodiversity, water quality, point and nonpoint source pollution control, carcinogens in the environment, industrial and agricultural chemicals, ozone hole and CFCs, global warming, deforestation, natural resource conservation, waste management, sustainable development, ecosystems, air quality, and green consumerism.

In course descriptions, the digit following the course number is the number of semester credit hours. For example, ENGL 111-3 is a freshman level course worth 3 semester hours of credit. The numbers in parentheses following the course number (for example, 3-2) indicate the number of clock hours per week devoted to theory and practice, respectively. (WI) indicates that sections of this course will be offered as writing intensive.
