

Horticulture

320-3 Landscape and Gardening Practices. (3-0) The use of landscape plants, vegetable and fruit crops for residential properties development. Gardening practices to include pruning, planting design, fertilizing, pest control, and organic methods will be studied.

In course descriptions, the digit following the course number is the number of semester credit hours. For example, ENGL 111-3 is a freshman level course worth 3 semester hours of credit. The numbers in parentheses following the course number (for example, 3-2) indicate the number of clock hours per week devoted to theory and practice, respectively. (WI) indicates that sections of this course will be offered as writing intensive.
