

## Horticulture

**380-3 Golf Course Design and Construction. (2-2)** Topics include the history of golf, styles of golf courses and layouts, site analysis, and design of greens, tees, and fairways. Construction practices as applied to tees, greens fairways, athletic fields, drainage, and irrigation will be studied. Discussions will include environmental issues related to design and construction, and permits as required by the government. Course Fee \$25. Lab Fee \$15. Prerequisite Course(s): HORT 200: Principles of Horticulture and and HORT 270: Introduction to Turfgrass Science or approval of instructor.

---

In course descriptions, the digit following the course number is the number of semester credit hours. For example, ENGL 111-3 is a freshman level course worth 3 semester hours of credit. The numbers in parentheses following the course number (for example, 3-2) indicate the number of clock hours per week devoted to theory and practice, respectively. (WI) indicates that sections of this course will be offered as writing intensive.
