

Wildlife Management

311-3 Wildlife Diseases. (3-0) Basic mechanisms of diseases as they occur in wildlife populations; interplay of habitat requirements, individual physiological requirements and disease producing mechanisms of varied wildlife species. Control/Prevention of infectious, non-infectious, parasitic diseases and parasites. Course fee \$5. Prerequisite Course(s): WLDM 221: Wildlife Conservation and Management and sophomore classification or approval of department head.

In course descriptions, the digit following the course number is the number of semester credit hours. For example, ENGL 111-3 is a freshman level course worth 3 semester hours of credit. The numbers in parentheses following the course number (for example, 3-2) indicate the number of clock hours per week devoted to theory and practice, respectively. (WI) indicates that sections of this course will be offered as writing intensive.
