

Lab 5 – Sorting

Assigned 9/29/09

Points: 20

Purpose

The purpose of the lab is to sort the items at a location using the quick sort algorithm.

Lab Description

Augment Lab 4 and to sort the items at a given location in ascending order using the quick sort algorithm. Make sure there are at least 7 items at a location.

Turn in a copy of your application's output and the quick sort code.
