

# CS 344 - Homework 5

**Name:** \_\_\_\_\_

**Point Value:** 10

**Assigned:** 11/23/09

Using Word, document the MATLAB Gauss Elimination function to use line highlighting and textboxes. Create at least 4 textboxes/highlighted areas to document portions of the code other than the simple “this does back substitution” sort of comments. Ideally, address those areas where you have concerns either in its functionality of the MATLAB syntax.
