ANNOUNCEMENTS:  
► Piper Award  
10 awards are given each year to full-time faculty for teaching excellence. Applications are due to the System by Nov. 22. We can forward one nominee from Tarleton. Let Dr. Shipman know by Oct. 30 if you would like to nominate someone or yourself.
► University Satisfaction Survey  
The Executive Board has talked to the administration about sending out a satisfaction survey. The Executive Council has looked at a couple of different appropriate instruments. This will be an agenda item for the next senate meeting.
► Term expiration  
At the next senate meeting, all senators will be asked to verify your term (Year 1, Year 2, Year 3).
► Parking study  
There is an ongoing traffic assessment by Kimley-Horn, an outside entity just finishing a study at College Station. They have not yet requested any input from campus populations.

SPECIAL GUESTS:  
Dr. Steve Steed and Dr. Diane Taylor

► Dr. Steed explained the process that the Salary Equity and Compression Task Force used in order to make recommendations to administration for salary adjustments. Salary adjustments to address compression between ranks were based upon a specific formula that he outlined. Salary compression within ranks was not addressed (years in rank were not considered). Also, only tenured and tenure-track faculty were included in the salary compression adjustments. Merit adjustments were decided at the department head/dean level. There will be two forthcoming sessions that faculty members can attend at which Dr. Steed will step through the entire process for the faculty at large.
► The task force also recommended to administration that this study be updated every 3 years to avoid future compression issues, so that smaller adjustments can be made on an ongoing basis.
► Based upon the adjustment formula, 50% of the recommended adjustments were made this year. The expectation is that the other half will be implemented next year, budget permitting.
