

# Texas & Pacific Coal & Oil Company Records

## Finding Aid

### Descriptive Summary

Creator: Texas & Pacific Coal and Oil Company

Title: Texas & Pacific Coal and Oil Company Records

Inclusive Dates: 1888-1970

Bulk Dates:

Abstract: The Texas & Pacific Coal and Oil Company records document the company from its days as the Texas & Pacific Coal Company and the subsidiary companies until the sale of Texas & Pacific Oil Company to Joseph E. Seagram & Sons, Inc. in 1963.

Collection #: 2003.03

Extent: 500 linear feet

Language: Materials are in English

Repository: W. K. Gordon Center for Industrial History of Texas, Tarleton State University

---

### Historical Note

In 1886, the Johnson Brothers Coal Company opened an underground bituminous coal mine just south of the Texas & Pacific Railroad Company line between Fort Worth and Abilene. Contracted to provide coal for the nearby railway, it could not meet its production goals. After the firm failed to pay its employees, the miners struck for back pay and production plummeted. Facing insurmountable difficulties, the Johnson Brothers in fall 1888 sold their holdings to a newly organized, New York based successor, the Texas & Pacific Coal Company.

Richard Dickey Hunter, president of this new firm, offered the former Johnson miners lower wages than his predecessors. He proceeded to build a company town that he named Thurber after board member Horace K. Thurber. Hunter began bringing in both American and immigrant miners who were willing to work for his wages. In time, the company expanded its underground mines and substantially increased the volume of their production.

In 1897 the Green and Hunter Brick Company, a subsidiary organization, began manufacturing both construction and paving bricks at Thurber. Initially it used barely sellable nut- and pea-sized coal to fuel the brick kilns, later employing natural gas for this purpose. Other subsidiaries included the Texas & Pacific Manufacturing and Mercantile Company, which operated the stores and many of the other services, and the Thurber Earthen Products Company, which ran a large rock crusher west of Thurber.

During the early twentieth century, railways began switching from coal to crude oil as fuel for their steam locomotives. This change prompted coal operators to begin seeking ways to diversify. William Knox Gordon, then manager of the mines at Thurber, began exploring for petroleum west of Thurber, an area where experts said large amounts of oil and gas would not be found. As early as 1915, his crews struck minor oil and gas deposits. Then in October 1917, one of his drilling rigs struck part of the huge Ranger Oil Field, a bonanza that opened West Texas to large-scale oil exploration and production.

Because of the revenues coming from oil at Ranger, the coal company in quick order became an oil company. In 1918, it changed its name to Texas Pacific Coal and Oil Company, and the corporate offices moved to Thurber from New York City. Despite this shift, reduced sales of coal combined with increased wage demand from miners prompted the firm to begin closing its mines during the early 1920s. Production ended at the Thurber brick plant in 1931. Two years later the company offices moved to Fort Worth as the firm continued to focus on petroleum.

In addition to producing crude oil, the Texas & Pacific Coal and Oil Company also operated its own pipelines and refineries. During the 1920s, it opened a chain of TP gasoline service stations that sold retail products throughout North Texas and Oklahoma. The firm continued operations into the early 1960s, when its board of directors decided to sell the firm. The buyer with the highest offer was the Frankfort Oil Company, a division of the Joseph E. Seagram & Sons, Inc., a distiller of liquor. The sale took place on 1 November 1963 and the Texas & Pacific Coal and Oil Company ceased to exist.

## Scope and Contents

Texas & Pacific Oil Company, Comet Oil Company, Elro Oil and Gas Company, Homestake Exploration Company, Thurber Construction Company, Thurber Pipeline Company, documents related to the sale of the Texas & Pacific Oil Company to the Frankfort Oil Company division of Joseph E. Seagram & Sons, Inc., and Joseph E. Seagram & Sons Inc. The records contain correspondence, financial records, annual reports, sample forms, land abstracts, charters, federal and ad valorem tax files, coal and oil resources reports which contain geophysical data, maps, topical files, and payroll records. The records range from 1894 through 1970. The range of dates is not continuous for all units of the company. The bulk of the material is from 1919 to 1965.

The records are contained in forty-nine boxes, 334 ledgers, 5 wallets, and sixty-seven rolled maps. The records are divided into nineteen series: Texas Pacific Coal Company, Texas & Pacific Coal and Oil Company Printed Material, Texas & Pacific Coal and Oil Company Land Abstracts, Texas & Pacific Coal and Oil Company Coal and Oil Resource Reports, Texas & Pacific Coal and Oil Company Coal and Oil Charters, Texas & Pacific Coal and Oil Company Federal Tax Files, Texas & Pacific Coal and Oil Company Ad Valorem Tax Files, Texas & Pacific Coal and Oil Company Topical Files, Hobbs Oil Field Project, Ledgers and Wallets, Folded Oil and Coal Related Maps and Material of the Thurber, Texas Area, Rolled Maps, Comet Oil Company, Elro Oil and Gas Company, Extension Gas Company, Homestake Exploration Company, Thurber Construction Company, Thurber Pipeline Company, and Joseph E. Seagram & Sons Inc.

Series I Texas Pacific Coal Company and contains only one item, W. K. Gordon's 1915 Report of Inspection of the Mines. The report gives the general condition of each mine along with a map and lists the number of workers by ethnicity at each mine.

Series II Texas & Pacific Coal and Oil Company Printed Material. By-laws, annual reports, company employee publications, and three sample form scrapbooks make up this series. The sample form scrapbooks contain an 1894 letter to stockholders, confidential letters, proxies, stock certificates, and dividend checks.

Series III Texas & Pacific Coal and Oil Company Land Abstracts. This series contains correspondence regarding title searches and land abstracts. While the majority of the abstracts are from the 1930s the title searches in the abstracts date

back to the 1880s. Included in the abstracts are the Pedro Herrera and Susan Latham surveys that so vital to the company's growth.

Series IV Texas & Pacific Coal and Oil Company Coal and Oil Resource Reports. Geophysical data in the form of sonic and induction electrical logs and maps are the bulk of the material in this series. There is also material on contracts with the Texas Highway Department regarding easements on company property. The majority of the items are from the 150s through the 1960s.

Series V Texas & Pacific Coal and Oil Company Coal and Oil Charters. This series contains various organizing data of the Texas & Pacific Coal and Oil Company and its various units. Included are the charters for all the states that the company operated within and Canadian Provinces. The data includes charters, amendments, permits, certificates, correspondence, by-laws, directors minutes, shareholders minutes, and executive committee minutes.

Series VI Texas & Pacific Coal and Oil Company Federal Tax Files. Composed of reports sent to the U. S. Treasury Department on various federal taxes paid by the company from 1933 through 1950 this series is divided into four subseries. The first subseries, Texas Pacific Coal and Oil Company of Delaware and concerns only those taxes paid by Texas Pacific Coal and Oil Company of Delaware. The second subseries, Texas Pacific Mercantile and Manufacturing Company and relates to taxes paid by the Mercantile and Manufacturing Company. Special Depletion Committee, Mid-Continent Oil and Gas Association is the fourth subseries. This subseries contains correspondence and publications related to the establishment of the depletion allowance. Some of the items of interest in the subseries are correspondence between various oil companies on the need to have a united front on the depletion allowance and the need to have an ironclad case supporting the allowance. American Petroleum Industries Committee-Correspondence and Bulletins is the fourth subseries and contains tax economics and taxation bulletins and correspondence. The Texas & Pacific Coal and Oil Company originally filed this material with the tax records so it was left in its original location. Company officers were members of the American Petroleum Industries and sat on its' committees.

Series VII Texas & Pacific Coal and Oil Company Ad Valorem Tax Files. This series contains ad valorem taxes records for cities in Texas. The records are in alphabetical order by city.

Series VIII Texas & Pacific Coal and Oil Company Topical Files. These are the topical files of S. M. Greenidge. Greenidge set up the tax department of the Texas & Pacific Coal and Oil Company. Greenidge was involved in several

company projects other than tax related projects. Included in these topical files are a report on the 1930 fire at Thurber, which includes the cost of rebuilding each building in Thurber and Greenidge's working papers for his 1953 coal report.

Series IX Hobbs Oil Field Project. This series documents the development of the Hobbs oil field by several oil companies including the Texas & Pacific and includes correspondence, maps, committee reports, and engineering reports. The series is divided into two subseries: Mid-Continent Oil and Gas Association-Dallas and Mid-Continent Oil and Gas Association-Tulsa. These two subseries contain correspondence and bulletins of the association.

Series X Ledgers. Divided into fifteen subseries, these are the financial records of the Texas Pacific Coal and Oil Company. The ledgers vary in size both dimensionally and number of pages. Many of the volumes are quite large and contain several hundred pages. The fifteen subseries are: I, Authorization for Expenditures; II, Expense Volumes; III, Revenue and Expense Volumes; IV, Physical Property Volumes; V, Depreciation Volumes; VI, Farm Account Volumes. These are oil properties that the Texas Pacific leased to other companies and not agricultural farms; VII, Lifting Expense Volumes; VIII, Crude Oil Production Sales Volumes; IX, Oil Sales Volumes; X, Royalty Volumes; XI, Well Record Volumes; XII, Title and Rental Department Volumes; XIII, Lease Volumes; XIV, Insurance Volumes; XV, Payroll Volumes. These are payroll volumes for the oil division of the company and contain no payroll records for the coal mining operation.

Series XI Folded Oil and Coal Related Maps and Material of the Thurber, Texas Area. These maps indicate coal lands, sites of diamond core holes, oil wells, fee lands, seismic surveys, and isopach maps. Included with the maps are various reports on Thurber ranch lands, coal reserves, and projects conducted on the Thurber ranch lands. These reports were left in this series to maintain the original order of the material.

Series XII Rolled Maps. These are large maps measuring up to several feet in length and height. Seven subseries compose this series. The first subseries is Coal Mine Maps, these are maps of individual mines and maps showing the location of all of the mines. Maps of Thurber, Texas compose the second subseries. These maps are of the town of Thurber itself and do not indicate the location of mines. The third subseries is Maps and Plans of Texas Pacific Oil Company Training Facility, Thurber, Texas. These are the maps and plans of a training and recreation area built by the company in the 1960s at Big Lake. U. S. Geological Survey/ U. S. Army Map Service Maps are the fourth subseries and are topographical maps of the Thurber area. The fifth subseries is Oil Field Maps,

these are maps by the Sun Exploration and Production Company of Palo Pinto, Eastland, Erath, and Stephens Counties. Subseries six is Thurber Ranch Property, Texas Pacific Oil Company, Inc. Maps included in this subseries include water resource maps, soil conservation maps, aerial photographs, and ranch property maps. The seventh and final subseries is Thurber Quarry (Coal Strip Mine) and consists of two large aerial photographs by Metropolitan aerial Surveys of a strip mine for coal near Thurber.

Series XIII Comet Oil Company. The Comet Oil Company Records are contained in two ledgers and three wallets. The records are largely sales and purchase records.

Series XIV Elro Oil and Gas Company. The financial records of the Elro Oil and Gas Company consist of three ledgers.

Series XV Extension Gas Company. One wallet and one ledger comprise the records of the Extension Gas Company. The records consist of cash records and trial balances.

Series XVI Homestake Exploration Company. Fourteen ledgers and one wallet consisting of trial balances, cashbooks, oil sales journals, property records, farm ledger, joint account for expenditures, royalty records, and lifting expenses represent the records of the Homestake Exploration Company.

Series XVII Thurber Construction Company. The records of the Thurber Construction Company are housed in four ledgers representing payroll and job records.

Series XVIII Thurber Pipeline Company. The six ledgers of the Thurber Pipeline Company cover oil run records, authorization for expenditures, and property records.

Series XIX Joseph E. Seagram & Sons Inc. The seven items in this series document the sale of the Texas Pacific Coal and Oil Company to Joseph E. Seagram and Sons Inc. in 1963 and an agreement of sale and purchase between the Sun Company, Inc.; The Seagram Company LTD.; and the Texas Pacific Oil Company, Inc. in 1980.

## Organization

The original order of the material was maintained as could best be determined by the arranger. Files that were in reverse chronological order were placed in chronological order. The arranger did impose an order when loose un-folded material was found, such as with the depletion allowance material. In the arrangement of the ledgers the subsidiary companies were placed in chronological order.

The records are arranged in nineteen series:

Series I. Texas Pacific Coal Company, 1915, 1 volume.

Series II. Texas & Pacific Coal and Oil Company Printed Material, 1919-1977. 1.65 linear ft. (1 document box, 1 record center carton)

Series III. Texas & Pacific Coal and Oil Company Land Abstracts, 1918-1964, undated. 2.10 linear ft. (5 document boxes).

Series IV. Texas & Pacific Coal and Oil Company Coal and Oil Resource Reports, 1929-1969, undated. 1.25 linear ft. (3 document boxes).

Series V. Texas & Pacific Coal and Oil Company Coal and Oil Charters, 1888-1965, undated. 7.10 linear ft. (17 document boxes).

Series VI. Texas & Pacific Coal and Oil Company Federal Tax Files, 1933-1949, undated. 2.50 linear ft. (6 document boxes).

Series VII. Texas & Pacific Coal and Oil Company Ad Valorem Tax Files, undated, 2.50 linear ft. (6 document boxes).

Series VIII. Texas & Pacific Coal and Oil Company Topical Files, 1926-1953, undated. 2.50 linear ft. ( 6 document boxes).

Series IX. Hobbs Oil Field Project, 1930-1947. 2.50 linear ft. ( 6 document boxes)

Series X. Ledgers,

Series XI. Folded Oil and Coal Related Maps and Material of the Thurber, Texas Area

Series XII. Rolled Maps

Series XIII. Comet Oil Company

Series XIV. Elro Oil and Gas Company

Series XV. Extension Gas Company

Series XVI. Homestake Exploration Company

Series XVII. Thurber Construction Company

Series XVIII. Thurber Pipeline Company

Series XIX. Joseph E. Seagram & Sons Inc.
