

Packing List

- A copy should be made of all important documentation. Store the copies in a safe place away from originals.
- Do not carry everything in one place. Never pack important documents, medicine or anything that you could not do without in checked luggage. Put said items in carry-on bag to ensure availability and prevent theft.
- When bringing electrical items ensure to bring the proper voltage converters to prevent damage.
- Pack light to insure ample room for gifts and souvenirs.
- Research the weather at the destination and pack accordingly.
- Research packing regulations for the airline of your choice.
- Be prepared for different types of weather.
