Spring 2004 Grade Distribution

Office of Planning, Evaluation, & Institutional Research  
Dr. Brad Chilton, Executive Director  
Compiled by: Don Ross, Senior Research Associate  
Ms. Freddie LeJeune, Administrative Assistant

# Overview:

The following charts represent Spring 2004 grades, as they existed on May 12, 2004. Six different sections make up the report.

**Section One** represents data pulled according to the student's college affiliation, student's classification and student's site of enrollment. Although each major is not identified, the data was grouped according to student classification and college affiliation. Page 1 combines all colleges, pages 2-7 isolates the data by colleges.

**Section Two** data was extracted by student's major and site of enrollment and grouped by college and level (UG or GD). Stephenville Campus enrollees are charted on pages 8-12. Killeen Campus enrollees are charted on pages 13-15.

In **Section Three** data was extracted according to prefixes taught during the cohort term and by the student's site of enrollment. This information was grouped by the level (UG or GD) and enrollment site (Stephenville or Killeen) of the grade recipient. Undergraduates taking graduate courses are identified with the course prefix in the undergraduate section. Likewise, graduates taking undergraduate courses are identified with the course prefix in the graduate section. Section Three data are charted on pages 16-24.

**Section Four** data provides a GPA analysis of New Freshmen on pages 25 through 27. The Spring 2004 term GPA was extracted for each student. Several characteristics of the new freshmen are depicted within arbitrary GPA ranges.

**Section Five** data provides a GPA analysis of New Transfers on pages 28 through 31. The Spring 2004 term GPA was extracted for each student. This information is separated by campus (Stephenville and Killeen).

**Section Six** data gives a breakdown of distance education grades in various formats: by courses taught via internet; courses taught by interactive video; classification of students taking dist. ed. courses; major of students taking dist ed. courses; and campus location of students taking dist. ed. courses. The grades for the distance education data were extracted May 14, 2004.
