Retention Report Fall 2004-2005

This report presents preliminary uncertified retention information for the fall 2004 and fall 2005 semesters. The analysis is based on a cohort group of students who were originally enrolled at Tarleton for the fall 2004 semester, deleting those who graduated within the 2004-2005 school year. The report then examines those students from the cohort, who returned for the fall 2005 semester.

One major goal of this publication is to provide the university community with a picture of student retention percentages. Due to the extraction of the data prior to certification of data for fall 2005, some data anomalies may exist. After the Texas Higher Education Coordinating Board certifies Tarleton's fall enrollment, the fall fact book will report final certified statistics for the semester.

If you have suggestions for improving this report, please contact the Office of Planning, Evaluation, and Institutional Research at 968-9354.
