

**Margie Holder**  
Master's degree candidate

**College:** Education;  
Department of Health and  
Physical Education

**Advisor:** Dr. Kayla Peak

**IMPACT OF NOISE LEVELS IN  
HIGH SCHOOL GYMS**

The purpose of this student, still in progress, is to discover if the buzzer on the scoreboards in 2A gymnasiums emits enough sound to cause noise induced hearing loss to those exposed over an extended period of time. If the result is yes, then steps must be formulated to correct this situation to protect the hearing of players, coaches and patrons.
