Engineering Camp

July 11-15, 2016
8:30 am - 5:00 pm
Engineering Bldg.
Room 115

Attention students entering 6th-10th grade! Come learn about engineering, problem solving tools, innovation, and design.

Cost: $50/person
Apply Now! Space is limited

What is an Engineer?
Lego Mindstorm Robotics
Design Projects – bridges, towers, cars, rockets and robots
Deconstruction
Learn to apply topics in math, physics, and chemistry to solve engineering problems

This camp is supported by a Texas Higher Education Coordinating Board Engineering Summer Program grant. We are seeking participants who are eager to learn!! Participation application is required. Teacher recommendation is a plus!

Engineering Camp Application

THECB program rules require participation application. To apply for Engineering camp, please fill in the information below.

Participant Name: ________________________________ t-shirt size: ______________
Grade as of Fall 2016: ______ School: ________________________________

Parent/Contact Information:
Parent/Contact Name: ________________________________
Address: ________________________________
Contact phone number: __________________ email: ________________________________
Preferred means of contact: □ email □ phone
Additional info the camp staff may need? ________________________________

Do you enjoy solving puzzles/problems? □ yes □ kind of □ no
Do you enjoy playing games that are problem solving in nature? □ yes □ kind of □ no
Do you enjoy analyzing how thing work? □ yes □ kind of □ no
Do you like to think of new inventions? □ yes □ kind of □ no
What were your final grades for the year (list subject and grade)? ________________________________
Are either of your parents an engineer, mathematician or scientist? □ yes □ kind of □ no
Are you willing to spend the week learning about how math and science are used to solve problems in engineering? □ yes □ kind of □ no
Did a teacher recommend you for this camp? □ yes □ kind of □ no
If yes, teacher name and email: ________________________________

Registration is $50 per participant*. Please make checks payable to TSU and note the participant's name on the check. Mail form and payment to the address below, or drop off at the Engineering and Computer Science office, room 114 Hydrology and Engineering building on Tarleton campus.
