- Endocrinology is the science dealing with _____.
 - Lipids
 - Hormones/chemical substances
 - Carbohydrates
 - The lymphatic system
- Alfalfa is an example of what?
 - Legume
 - Forage
 - Protein source
 - All of the above
- A condition of low blood calcium which results in partial paralysis is....
 - Milk fever
 - Bovine virus diarrhea
 - Hardware disease
 - Brucellosis
- When a small metal object punctures the stomach wall and leads to infection, the resulting disease is.....
 - Milk fever
 - Mastitis
 - Hardware disease
 - Black leg
- This disease is transmitted through natural mating and causes abortion, low conception rates, and irregular heat cycles.
 - Milk fever
 - Vibriosis
 - Hardware disease
 - Black leg
- As a rule of thumb when milk production _____, the fat content _____.
 - Decreases, increases
 - Decreases, decreases
 - Increases, increases
 - Stops, increases
- _____ represents the largest daily input cost to produce milk.
 - Labor
 - Water
 - Animals
 - Feed
- The top-producing county in Texas (at this time) is _____.
 - Erath
 - Brazos
 - Comanche
 - Wharton
- What manure waste management puts solids in a bin and lets it degrade?
 - Slurry
 - Composting
 - Solid
 - Lagoon
- Which mineral functions in maintaining osmotic pressure, acid-base balance, and body fluid balance?
 - Sodium
 - Selenium
 - Sulfur
 - Zinc
- The breed of dairy cattle that can be roan, all red, all white, or even spotted red and white is:
 - Holstein
 - Ayrshire
 - Guernsey
 - Milking Shorthorn
- Which mineral is found in high concentrations in soft tissues such as the pancreas, liver, and kidney?
 - Sulfur
 - Sodium
 - Zinc
 - Selenium
- A bovine female which has not had a calf is a(n):
 - Filly
 - Doe
 - Cow
 - Heifer
