

Class 1 - Vines and Groundcovers - English Ivy

	Plant #	Points
Keep	4	15
	2	13
	7	12
	1	10
<hr/>		
Cull	6	9
	3	8
	5	4
	8	1

Notes

- 1 - good vine type growth, young
- 2- better length, new growth
- 3- good foliage but not appropriate vining
- 4 - good vine shape and growth, roots beginning for vine rooting in
- 5 - no vine type growth, disease
- 6 - irregular but good growth, starting to vine
- 7- less new growth than 2 or 4, but good young vine
- 8 - lots of mechanical damage and disease

Class 2 - Groundcover/Vines - Liriope

	Plant #	Points
Keep	6	18
	5	16
	4	10
	2	6
<hr/>		
Cull	7	5
	1	4
	3	2
	8	1

Notes

- 1- rootbound and it starting to cause necrosis of the tips making the plant less healthy
- 2 - good growth but irregular shape
- 3 - very irregular, weeds
- 4 - full but irregular
- 5 - good uniform growth, minor mechanical
- 6 - good, full, uniform growth, good root system but not rootbound to cause damage to foliage
- 7- new growth but not uniform, weeds
- 8- small, irregular, mechanical damage, weeds

Class 3 - Shrubs - Boxwoods

	Plant #	Points
Keep	6	17
	1	16
	3	9
	2	8
Cull	5	7
	8	6
	7	4
	4	2

Notes

All plants exhibit the same frost damage to foliage

- 1 - decently full, minor weed
- 2 - shorter but full
- 3 - slightly irregular, but decent shape
- 4 - most irregular, weeds
- 5 - more irregular than 2, decent shape
- 6 - most full, best shape
- 7 - mechanical damage, thinner growth, weeds
- 8 - full but irregular height and width, mechanical damage

Class 4 - Annual Herbaceous - Caladiums

	Plant #	Points
Keep	5	20
	1	11
	2	10
	3	9
Cull	6	7
	8	5
	7	3
	4	2

Notes

- 1 - good color, irregular leaf sizes but lots of new growth
- 2 - less new growth but uniform
- 3 - irregular but lots of new growth
- 4 - most irregular, little new growth
- 5 - most uniform, good color, new growth
- 6 - some color, less new growth than 3
- 7 - uniform leaf size and color but less new growth
- 8 - minor mechanical, more leaves and new growth than 7
