

Practicum #2

Naming and Locating Common Sites for Venipuncture Employed in all Domestic Animals

Objective:

Students will name and locate common sites for venipuncture employed in all domestic animals.

Instructions:

Talk through and demonstrate how to perform venipuncture of the cephalic vein of a dog.

IMPORTANT!

Please bubble your information into Rubric Form 1e

- Write and bubble your Team# into the 4 columns at the top of Rubric Form 1e.
- Write and bubble your Contestant# (your group number found on your lapel card) into the "Student" column at the top of Rubric Form 1e.
- Write your name in the large open box "Team Name / Additional Info"
