cc: Deans and Department Heads

**Instructions: Tenure and Promotion Application Packet**

Packets for tenure and/or promotion are submitted through Interfolio and must include the following:

- Narrative<sup>1</sup>
  - Dossier generated through [Digital Measures](#) (contact [cafa@tarleton.edu](mailto:cafa@tarleton.edu) if you need assistance)
  - Student and peer evaluations (Student evaluations can be download from SmartEvals, <https://www.smartevals.com/tarleton>).
  - Curriculum vitae
  - Annual performance reviews from Workday for past 3 years
  - Supporting documentation<sup>2</sup>
1. **Narrative:** Your narrative should provide context to the required information you include. For instance, a narrative could address steps you've taken to improve your teaching; explain any setbacks you experienced; discuss how you have learned from and addressed challenges; discuss the evolution of your research agenda; and explain the role service has played in your professional life. There are simply suggestions. In short, tell your story. One approach is to organized your narrative by the areas under evaluation: teaching, research (if applicable), and service. A general guideline for length is between 3-6 pages single-spaced, but there is no specific length requirement.
  2. **Supporting documentation:** Examples to consider include external letters of support, copies of certificates, publications, grant proposals, and presentations. Because of the limitation in Interfolio as to the number of documents you may upload, it is recommended that supporting documentation be collapsed into two to three folders entitled "Teaching," "Research," and "Service" to be submitted in Interfolio.

### **Interfolio: General Information**

- You will have access to the recommendations made at each level of review through Interfolio no later than the due date posted on the timeline.
- Once a reviewer has submitted their recommendation to the next level of review, you will be notified by email. This should occur no later than the due date posted on the timeline. If you do not receive an email notification on the day the reviewer's recommendation was due to the next level, please contact [cafa@tarleton.edu](mailto:cafa@tarleton.edu) as soon as possible.
- You have the option to respond to the recommendations submitted by reviewers. Your response is due 7 days after the date a reviewer's recommendation is submitted. Please note, no additional materials may be submitted beyond the written response to the recommendation.
- If you choose to respond, your response should be addressed to the next reviewer. Thus, if your response concerns the College Review Committee's recommendation, the response should be addressed to the College Dean and submitted to the College Dean's folder in Interfolio.
- The submission of an optional response is carried out through Interfolio. The email notifying you that an evaluation has been submitted will include a link to the evaluation. The page with the recommendation will include a link that allows you to submit a response to the next level of review. If you need assistance with this, please contact [cafa@tarleton.edu](mailto:cafa@tarleton.edu).

Feel free to contact your department head, dean, or the office of the Associate Provost for Curriculum and Faculty Affairs ([cafa@tarleton.edu](mailto:cafa@tarleton.edu)) with questions or concerns regarding this schedule.
