Minutes from the Meeting of May 21, 2019

Agenda Item 1: Minutes of the April 16, 2019 meeting.

Minutes were approved by majority email vote.

Agenda Item 2: Curriculum items

Department	Program/Course	Change Request	Item No.	Effective Term
Social Work	SOCW 5316	We are modifying our curriculum to have more overlap between the two concentrations in our MSW program. The initial curriculum did not include an Advanced Policy & Advocacy course, and we believe that this is an area that was lacking in the original plan. By combining some other courses between the two concentrations, we have enough hours left in the MSW degree to require this course.	C3870	Fall 2020
Accounting, Finance, and Economics	ACCT 5330	The two educational objectives of the Master of Accounting Program are: 1) To prepare students as professional accountants in public practice or in business and 2) To develop each students intermediate proficiency in all technical competence areas of accounting generalists and to develop advanced proficiency in financial accounting & reporting and at least one other accounting technical competence area (taxation, audit & assurance, accounting information systems, managerial accounting). Adding this Advanced Managerial Accounting course will allow students to develop advanced proficiency in managerial accounting. At present, we are able to only develop students' advanced proficiencies in four of five of the technical competence areas of accounting. We have offered this course as a "Problems" course the past three Spring semesters.	C3858	Fall 2020
Counseling	CNSL 5311	Course name change to update title to current standards.	C2890	Fall 2020
Animal Science & Veterinary Technology	ANSC 5325	This course has been offered as a Special Problems course with the undergraduate ANSC 3325. It will still be offered along with ANSC 3325; however, students in this course will be required to complete reviews of assigned journal articles related to course topics.	C3878	Fall 2020
