

TARLETON SCHOOL OF KINESIOLOGY OUTSTANDING GRADUATES (GR)

Adrianna Knutson

Adrianna Knutson is our outstanding MS-KINE graduate. The San Antonio, Texas native is a retired volleyball player for the Tarleton Texans. Aside from working out she enjoys reading her bible and hanging out with her dog, Luka. She chose to pursue a Kinesiology degree in both her B.S. and M.S. because of the impact that sports have on her life. Her passion for sports goes beyond coaching. Upon accepting a job as a coach, her next goal is to be a head varsity volleyball coach, followed by becoming a girls' athletic coordinator.

Kayla Ewing

Kayla Ewing is our outstanding MSAT graduate. Kayla is from Waco, Texas. She enjoys watching movies, game nights with friends and participating in intramural sports. Her MSAT degree is the last step in achieving her goal in becoming an athletic trainer. Kayla's career goals are to work for a college in Texas as a certified AT for either men or women's basketball, cheer or volleyball.

TARLETON SCHOOL OF KINESIOLOGY OUTSTANDING GRADUATES (UG)

Faith Maruschak

Faith is from Bedford, TX. When she is not working or studying she enjoys playing sports with friends and traveling. She chose Kinesiology due to her background with sports. Her main sport was gymnastics, which she did for 16 years. After many injuries, she wanted to learn more about how the body works from the Sports Science perspective. During her time at Tarleton, she was able to learn more about specific sports, the body movements in relation to exercise, as well as different injuries related to sports. After graduation, she plans to become a secondary science teacher and a gymnastics coach. She will be combining her love for science as well as continuing her passion for sports.

Randall Toops

Randall is from San Angelo, TX. He loves staying active, being involved with campus events, and representing Tarleton's core values. He appreciates the opportunities that Tarleton has given him to develop himself in personal and professional manners. After graduation he will be applying to UNT Health Science Center in Fort Worth to pursue a DPT (Doctorate of Physical Therapy) degree. Randall yearns for the chance to give people quality, personalized, and effective treatments to get them back to happier, healthier and more active lives.
