TARLETON STATE UNIVERSITY

Department of Kinesiology

Master of Science (M.S.)

The mission of the Department of Kinesiology is to provide quality education, research, and service opportunities by empowering students and building fearless champions. The Master of Science degree in Kinesiology is designed to prepare successful professionals for a rewarding career in leadership within the Kinesiology, Rec Sports and Athletic industry. This fully online program is designed to help students improve their competencies in their respective fields by developing new skills and in-depth knowledge which are the requisites for assuming roles of increased responsibility and leadership. The Department of Kinesiology offers coursework leading to the M.S. in Kinesiology with a flexible curriculum to meet the specific needs and interests of the student. Each degree concentration requires the completion of 30 credit hours.

The Department of Kinesiology offers the following Graduate concentrations:

Sport Administration prepares the student interested in administration of athletic programs at the youth sport, high school, collegiate, and professional levels.
