

# Setting Up Library Links in Google Scholar

Created by [Tarleton State University Libraries](#). Updated January, 2018.

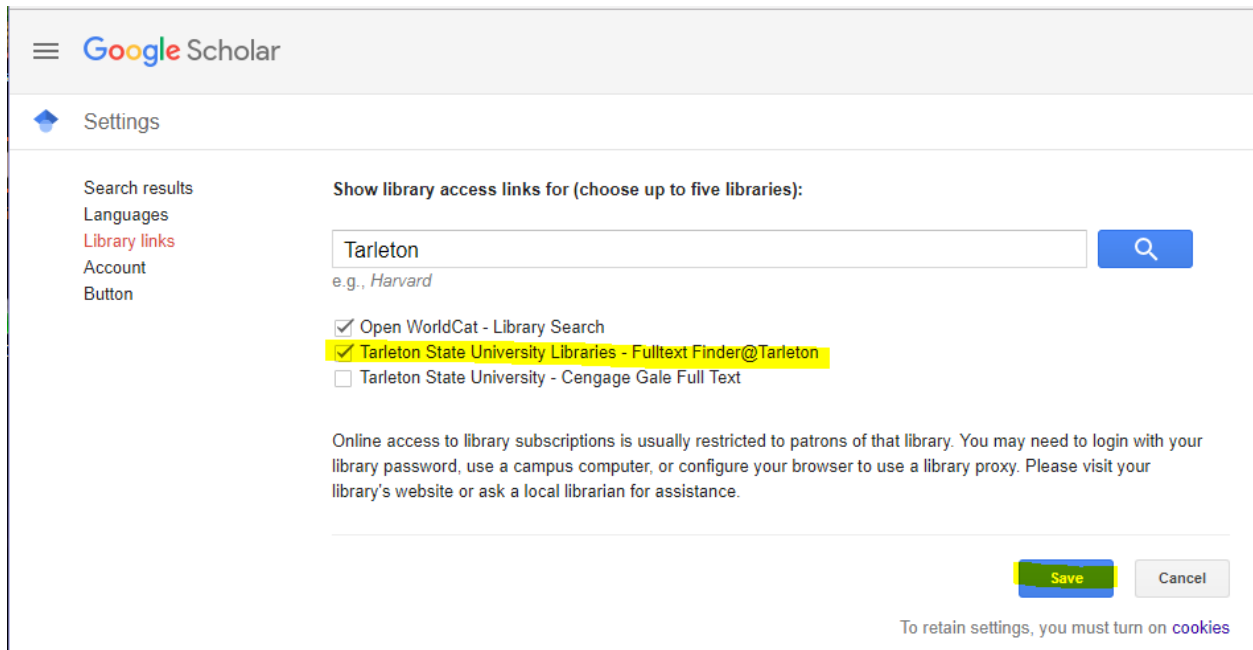

1. Go to scholar.google.com and click on the 3 bar menu at the top left corner of the page and choose "Settings" or the gear icon.

2. Choose "Library Links" from the settings menu.

3. Type "Tarleton" in the search bar, choose "Tarleton State University Libraries – Fulltext Finder@Tarleton" and hit "Save".

The screenshot shows the Google Scholar settings page. On the left, there is a navigation menu with the following items: "Search results", "Languages", "Library links" (highlighted in red), "Account", and "Button". The main content area is titled "Settings" and contains a section for "Show library access links for (choose up to five libraries):". Below this title is a search input field containing the text "Tarleton" and a blue search button with a magnifying glass icon. Below the search field, there is a small text example: "e.g., *Harvard*". There are three checkboxes listed below: "Open WorldCat - Library Search" (checked), "Tarleton State University Libraries - Fulltext Finder@Tarleton" (checked and highlighted in yellow), and "Tarleton State University - Cengage Gale Full Text" (unchecked). Below the checkboxes, there is a paragraph of text: "Online access to library subscriptions is usually restricted to patrons of that library. You may need to login with your library password, use a campus computer, or configure your browser to use a library proxy. Please visit your library's website or ask a local librarian for assistance." At the bottom right of the settings area, there are two buttons: a green "Save" button and a grey "Cancel" button. Below the buttons, there is a note: "To retain settings, you must turn on [cookies](#)".
