The Texas A&M Board of Regents  
401 Joe Routt Boulevard  
College Station, Texas 77843  

Dear Regents of the A&M System,  

The Texas Legislature, with the intent of addressing the issue of racial profiling in policing, enacted in 2001, the Texas Racial Profiling Law. During the past year, the Tarleton State University Police Department, in accordance with the law, has collected and reported traffic and motor vehicle-related contact data for the purpose of identifying and addressing (if necessary) areas of concern regarding racial profiling practices. In the 2009 Texas legislative session, the Racial Profiling Law was modified and additional requirements were implemented. Moreover, in 2017, the Sandra Bland Act was passed and signed into law (along with HB 3051 which introduced new racial and ethnic designations). The Sandra Bland Law requires that law enforcement agencies in the state collect additional data and provide a more detailed analysis. All of these requirements have been met by the Tarleton State University Police Department and are included in this report.

This particular report contains three sections with information on motor vehicle-related contact data. In addition, when appropriate, documentation is also a component of this report, aiming at demonstrating the manner in which the Tarleton State University Police Department has complied with the Texas Racial Profiling Law. In section 1, you will find the table of contents in addition to the Texas Senate Bill (SB1074); which later became the Texas Racial Profiling Law. Further, you will find the Texas HB 3389, which, in 2009, introduced new requirements relevant to racial profiling as well as the Sandra Bland Act. Also, in this section, a list of requirements relevant to the Racial Profiling Law as established by TCOLE (Texas Commission on Law Enforcement) is included. In addition, you will find, in sections 2 and 3 documentation which demonstrates compliance by the Tarleton State University Police Department relevant to the requirements as established in the Texas Racial Profiling Law. That is, you will find documents relevant to the implementation of an institutional policy banning racial profiling, the incorporation of a racial profiling complaint process and the training administered to all law enforcement personnel.

The last section of this report includes statistical data relevant to contacts, made during the course of motor vehicle stops and in accordance with the law, between 1/1/18 and 12/31/18. In addition, this section contains the TCOLE Tier 2 form, which is required to be submitted to this particular organization by March 1st of each year. The data in this report has been analyzed and compared to data derived from the U.S. Census Bureau’s Fair Roads Standard. The final analysis and recommendations are also included in this report. The findings in this report serve as evidence of the Tarleton State University Police Department’s commitment to comply with the Texas Racial Profiling Law.

Sincerely,

Alex del Carmen, Ph.D.

TCOLE GUIDELINES
Guidelines for Compiling and Reporting Data under Senate Bill 1074

Background
Senate Bill 1074 of the 77th Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of what must be accomplished by an agency but allows wide latitude in determining how the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The standard statement is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

Standard 1
Each law enforcement agency has a detailed written directive that:
- clearly defines acts that constitute racial profiling;
- strictly prohibits peace officers employed by the agency from engaging in racial profiling;
- implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
- provides for public education relating to the complaint process;
- requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency’s written racial profiling policy; and
- requires the collection of certain types of data for subsequent reporting.

Commentary
Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an “agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers’ official duties.”

The article further defines race or ethnicity as being of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American.” The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.
**Standard 2**

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person’s race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer’s best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

**Commentary**

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, “the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose.”

**Standard 3**

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.

**Commentary**

Senate Bill 1074 from the 77th Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide and analysis of the information collected by peace officer employed by the agency. The report is provided to the governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).
The minimum requirements for “tier one” data for traffic stops in which a citation results are:

1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of “a particular
descent, including Caucasian, African, Hispanic, Asian, or Native American”);
2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable
cause search; and
3) whether there was a custody arrest.

The minimum requirements for reporting on “tier two” reports include traffic and pedestrian stops. Tier two data include:

1) the detained person’s gender and race or ethnicity;
2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal
investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into
hazardous or non-hazardous);
3) whether a search was conducted, and if so whether it was based on consent or probable cause;
4) facts supporting probable cause;
5) the type, if any, of contraband that was collected;
6) disposition of the stop, e.g., arrest, ticket, warning, or release;
7) location of stop; and
8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual
report of information if the agency is an agency of a county, municipality, or other political subdivision of the state.
Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar
year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of
persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops
including searches resulting from the stops. The reports also include information relating to each complaint filed
with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency
may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public
Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in
interpreting the data involving percentages because of statistical distortions caused by very small numbers in any
particular category, for example, if only one American Indian is stopped and searched, that stop would not provide
an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate
would be skewed data when compared to a 50% rate for Caucasians.

**Standard 4**

If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for
traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the
agency:

- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a
complaint on written request by the officer.

**Commentary**

The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the
peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a
complaint and the officer makes a written request.

**Standard 5**

Agencies that do not currently have video or audio equipment must examine the feasibility of
installing such equipment.
**Commentary**

None

**Standard 6**

Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 T CCP and officers are exempt from the reporting requirements of Article 2.133 T CCP provided that:

- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

**Commentary**

The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 T CCP.

**Standard 7**

Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

**Commentary**

Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.
The Texas Law on Racial Profiling
AN ACT

relating to the prevention of racial profiling by certain peace officers.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF

TEXAS:

SECTION 1. Chapter 2, Code of Criminal Procedure, is amended by adding Articles 2.131 through 2.138 to read as follows:

Art. 2.131. RACIAL PROFILING PROHIBITED. A peace officer may not engage in racial profiling.

Art. 2.132. LAW ENFORCEMENT POLICY ON RACIAL PROFILING. (a) In this article:

(1) "Law enforcement agency" means an agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers' official duties.

(2) "Race or ethnicity" means of a particular descent, including Caucasian, African, Hispanic, Asian, or Native American descent.

(b) Each law enforcement agency in this state shall adopt a detailed written policy on racial profiling. The policy must:

(1) clearly define acts constituting racial profiling;

(2) strictly prohibit peace officers employed by the agency from engaging in racial profiling;

(3) implement a process by which an individual may file a complaint with the agency if the individual believes that a peace officer employed by the agency has engaged in racial profiling with respect to the individual:
(4) provide public education relating to the agency's complaint process;

(5) require appropriate corrective action to be taken against a peace officer employed by the agency who, after an investigation, is shown to have engaged in racial profiling in violation of the agency's policy adopted under this article;

(6) require collection of information relating to traffic stops in which a citation is issued and to arrests resulting from those traffic stops, including information relating to:

(A) the race or ethnicity of the individual detained; and

(B) whether a search was conducted and, if so, whether the person detained consented to the search; and

(7) require the agency to submit to the governing body of each county or municipality served by the agency an annual report of the information collected under Subdivision (6) if the agency is an agency of a county, municipality, or other political subdivision of the state.

(c) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make traffic stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make traffic stops. If a law enforcement agency installs video or audio equipment as provided by this subsection, the policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(e) A report required under Subsection (b)(7) may not include identifying information about a peace officer who makes a traffic stop or about an individual
who is stopped or arrested by a peace officer. This subsection does not affect the collection of information as required by a policy under Subsection (b)(6).

(f) On the commencement of an investigation by a law enforcement agency of a complaint described by Subsection (b)(3) in which a video or audio recording of the occurrence on which the complaint is based was made, the agency shall promptly provide a copy of the recording to the peace officer who is the subject of the complaint on written request by the officer.

Art. 2.133. REPORTS REQUIRED FOR TRAFFIC AND PEDESTRIAN STOPS. (a) In this article:

(2) "Pedestrian stop" means an interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.

(b) A peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic or who stops a pedestrian for any suspected offense shall report to the law enforcement agency that employs the officer information relating to the stop, including:

(1) a physical description of each person detained as a result of the stop, including:

(A) the person's gender; and

(B) the person's race or ethnicity, as stated by the person or, if the person does not state the person's race or ethnicity, as determined by the officer to the best of the officer's ability;

(2) the traffic law or ordinance alleged to have been violated or the suspected offense:
whether the officer conducted a search as a result of the stop and, if so, whether the person detained consented to the search;

whether any contraband was discovered in the course of the search and the type of contraband discovered;

whether probable cause to search existed and the facts supporting the existence of that probable cause;

whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;

the street address or approximate location of the stop; and

whether the officer issued a warning or a citation as a result of the stop, including a description of the warning or a statement of the violation charged.

(b) A law enforcement agency shall compile and analyze the information contained in each report received by the agency under Article 2.133.  Not later than March 1 of each year, each local law enforcement agency shall submit a report containing the information compiled during the previous calendar year to the governing body of each county or municipality served by the agency in a manner approved by the agency.

(c) A report required under Subsection (b) must include:

(1) a comparative analysis of the information compiled under Article 2.133 to:

(A) determine the prevalence of racial profiling by peace officers employed by the agency; and
(B) examine the disposition of traffic and pedestrian stops made by officers employed by the agency, including searches resulting from the stops; and

(2) information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

(d) A report required under Subsection (b) may not include identifying information about a peace officer who makes a traffic or pedestrian stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the reporting of information required under Article 2.133(b)(1).

(e) The Commission on Law Enforcement Officer Standards and Education shall develop guidelines for compiling and reporting information as required by this article.

(f) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

Art. 2.135. EXEMPTION FOR AGENCIES USING VIDEO AND AUDIO EQUIPMENT. (a) A peace officer is exempt from the reporting requirement under Article 2.133 and a law enforcement agency is exempt from the compilation, analysis, and reporting requirements under Article 2.134 if:

(1) during the calendar year preceding the date that a report under Article 2.134 is required to be submitted:

(A) each law enforcement motor vehicle regularly used by an officer employed by the agency to make traffic and pedestrian stops is equipped with video camera and transmitter-activated equipment and each law enforcement motorcycle regularly used to make traffic and pedestrian stops is equipped with transmitter-activated equipment; and
(B) each traffic and pedestrian stop made by an officer employed by the agency that is capable of being recorded by video and audio or audio equipment, as appropriate, is recorded by using the equipment; or

(2) the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a)(1)(A) and the agency does not receive from the state funds or video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose.

(b) Except as otherwise provided by this subsection, a law enforcement agency that is exempt from the requirements under Article 2.134 shall retain the video and audio or audio documentation of each traffic and pedestrian stop for at least 90 days after the date of the stop. If a complaint is filed with the law enforcement agency alleging that a peace officer employed by the agency has engaged in racial profiling with respect to a traffic or pedestrian stop, the agency shall retain the video and audio or audio record of the stop until final disposition of the complaint.

(c) This article does not affect the collection or reporting requirements under Article 2.132.

Art. 2.136. LIABILITY. A peace officer is not liable for damages arising from an act relating to the collection or reporting of information as required by Article 2.133 or under a policy adopted under Article 2.132.

Art. 2.137. PROVISION OF FUNDING OR EQUIPMENT. (a) The Department of Public Safety shall adopt rules for providing funds or video and audio equipment to law enforcement agencies for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), including specifying criteria to prioritize funding or equipment provided to law enforcement agencies. The criteria may include consideration of tax
effort, financial hardship, available revenue, and budget surpluses. The criteria must give priority to:

1. law enforcement agencies that employ peace officers whose primary duty is traffic enforcement;

2. smaller jurisdictions; and

3. municipal and county law enforcement agencies.

(b) The Department of Public Safety shall collaborate with an institution of higher education to identify law enforcement agencies that need funds or video and audio equipment for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A). The collaboration may include the use of a survey to assist in developing criteria to prioritize funding or equipment provided to law enforcement agencies.

(c) To receive funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency needs funds or video and audio equipment for that purpose.

(d) On receipt of funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency has installed video and audio equipment as described by Article 2.135(a)(1)(A) and is using the equipment as required by Article 2.135(a)(1).

Art. 2.138. RULES. The Department of Public Safety may adopt rules to implement Articles 2.131–2.137.

SECTION 2. Chapter 3, Code of Criminal Procedure, is amended by adding Article 3.05 to read as follows:
Art. 3.05. RACIAL PROFILING. In this code, "racial profiling" means a law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.

SECTION 3. Section 96.641, Education Code, is amended by adding Subsection (j) to read as follows:

(j) As part of the initial training and continuing education for police chiefs required under this section, the institute shall establish a program on racial profiling. The program must include an examination of the best practices for:

(1) monitoring peace officers' compliance with laws and internal agency policies relating to racial profiling;

An officer shall complete a program established under this subsection not later than the second anniversary of the date the officer is licensed under this chapter or the date the officer applies for an intermediate proficiency certificate, whichever date is earlier.

SECTION 5. Section 1701.402, Occupations Code, is amended by adding Subsection (d) to read as follows:

(d) As a requirement for an intermediate proficiency certificate, an officer must complete an education and training program on racial profiling established by the commission under Section 1701.253(e).
SECTION 6. Section 543.202, Transportation Code, is amended to read as follows:

Sec. 543.202. FORM OF RECORD. (a) In this section, "race or ethnicity" means of a particular descent, including Caucasian, African, Hispanic, Asian, or Native American descent.

(b) The record must be made on a form or by a data processing method acceptable to the department and must include:

(1) the name, address, physical description, including race or ethnicity, date of birth, and driver's license number of the person charged;
(2) the registration number of the vehicle involved;
(3) whether the vehicle was a commercial motor vehicle as defined by Chapter 522 or was involved in transporting hazardous materials;
(4) the person's social security number, if the person was operating a commercial motor vehicle or was the holder of a commercial driver's license or commercial driver learner's permit;
(5) the date and nature of the offense, including whether the offense was a serious traffic violation as defined by Chapter 522;
(6) whether a search of the vehicle was conducted and whether consent for the search was obtained;
(7) the plea, the judgment, and whether bail was forfeited;
(8) the date of conviction; and
(9) the amount of the fine or forfeiture.

SECTION 7. Not later than January 1, 2002, a law enforcement agency shall adopt and implement a policy and begin collecting information under the policy as required by Article 2.132, Code of Criminal Procedure, as added by this Act. A local law enforcement agency shall first submit information to the governing body of each county or municipality served by the agency as required by Article 2.132, Code of Criminal Procedure, as

SECTION 11. An individual appointed or elected as a police chief before the effective date of this Act shall complete a program on racial profiling established under Subsection (j), Section 96.641, Education Code, as added by this Act, not later than September 1, 2003.
SECTION 12. This Act takes effect September 1, 200

(B) Race or Ethnicity - a particular descent, including Caucasian, African, Hispanic, Asian, Middle Eastern or Native American descent.

(C) Acts Constituting Racial Profiling - acts initiating law enforcement action, such as a motor Vehicle stop, a detention, a search, issuance of a citation, or an arrest based solely upon an individual’s race, ethnicity, or national origin or on the basis of racial or ethnicity, stereotypes, rather than upon the individual’s behavior, information identifying the individual as having possibly engaged in criminal activity, or other lawful reasons for the law enforcement action.

(D) Pedestrian Stop - an interaction between a peace officer and an individual who is being detained for the purposes of a criminal investigation in which the individual is not under arrest.

(E) Motor Vehicle Stop - stopping of a motor vehicle by a peace officer for an alleged violation of law or ordinance regulating traffic.

414.04 PROHIBITION
Peace officers of the Tarleton State University Police Department are strictly prohibited from engaging in racial profiling. The prohibition against racial profiling does not preclude the use of race, ethnicity, or national origin as factors in a detention decision by a peace officer, but must not be the sole reason for the detention.

Race, ethnicity, or national origin may be legitimate factors in such a decision when used as part of a description of a suspect or witness for whom a peace officer is searching.

414.05 COMPLAINT PROCESS

(A) Any person who believes that a peace officer employed by the Tarleton State University Police Department has engaged in racial profiling with respect to that person may find information about how to file a complaint with the department by clicking on the link, “Racial Profiling”, on the Tarleton Police Department Web Page or by contacting an officer directly. No person shall be discouraged, intimidated, or coerced from filing such a complaint, or be discriminated against because they have filed such a complaint.

(B) The department shall accept and investigate citizen complaints alleging racial profiling by its peace officers. Such complaints shall be in writing, or the employee, officer, or official receiving the complaint should reduce the same to writing, and should include the time, place, and details of the incident of alleged racial profiling, the identity or description of the peace officer or officers involved, and the identity and manner of contacting the complainant.

(C) Any peace officer or employee of the department who receives a citizen complaint alleging racial profiling shall forward the complaint to the Chief of Police or his designee within 12 hours of receipt of the complaint. Receipt of each complaint shall be acknowledged to the complainant in writing; all such complaints shall be reviewed and investigated by the Chief of Police or his designee within a reasonable period of time, not to exceed 10 working days. The results of the review and investigation shall be forwarded to the Chief of Police. The complainant shall receive notice of the disposition of the complaint within a reasonable period of time, not to exceed 5 working days after the completion of the investigation.

414.06 INVESTIGATION

(A) In investigating a complaint alleging racial profiling, the Chief of Police or his designee shall seek to determine if the officer who is subject of the complaint has engaged in a pattern of racial profiling that includes multiple acts constituting racial profiling for which there is no reasonable, credible explanation based on established police and law enforcement procedures. A single act constituting racial profiling may not be considered a pattern of racial profiling, and may not be grounds for corrective action.

414.07 CORRECTIVE ACTION

(A) Any peace officer who is found, after investigation, to have engaged in racial profiling in violation of this policy shall be subject to corrective action, which may include reprimand; diversity, sensitivity or other appropriate training or counseling; paid or unpaid suspension; termination of employment, or other appropriate action as determined by the Chief of Police.

414.08 PUBLIC EDUCATION

(B) Each traffic and pedestrian stop made by an officer of this department that is capable of being recorded by video and audio, and as appropriate, shall be recorded.

(C) Although each traffic and pedestrian stop made by an officer of this department is recorded by audio and video, each officer shall also collect the data required by this policy.

### 414.11 REVIEW OF VIDEO AND AUDIO DOCUMENTATION

(A) Each audio and video recording shall be retained for a minimum period of ninety (90) days unless a complaint is filed alleging that a peace officer of the has engaged in racial profiling with respect to a traffic or pedestrian stop, in which case the recording shall be retained until final disposition of the complaint.

(B) In conjunction with preparation of the annual report required under section 9 above, the Chief of Police or his designee shall periodically conduct reviews of a randomly-selected sampling of video and audio recordings made recently by peace officers employed by the Tarleton Police department in order to determine if patterns of racial profiling exist. The Patrol Lieutenant will maintain documentation of these reviews.

(C) In reviewing audio and video recordings, the Chief of Police or his designee shall seek to determine if the officer who is involved therein has engaged in a pattern of racial profiling that includes multiple acts constituting racial profiling for which there is no reasonable, credible explanation based on established police and law enforcement procedures. Public Education on Filing
Compliments and Complaints
Informing the Public on the Process of Filing a Compliment or Complaint with the Tarleton State University Police Department

The Texas Racial Profiling Law requires that police agencies provide information to the public regarding the manner in which to file a compliment or racial profiling complaint. In an effort to comply with this particular component, the Tarleton State University Police Department launched an educational campaign aimed at informing the public on issues relevant to the racial profiling complaint process.

The police department made available, in the lobby area and on its web site, information relevant to filing a compliment and complaint on a racial profiling violation by a Tarleton Police officer. In addition, each time an officer issues a citation, ticket or warning, information on how to file a compliment or complaint is given to the individual cited. This information is in the form of a web address (including in the document issued to the citizen), which has instructions and details specifics related to the compliment or complaint processes.

It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.
Racial Profiling Training
Racial Profiling Training

All Tarleton Police officers have been instructed, as specified in the Texas Racial Profiling Law, to adhere to all Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Tarleton State University Police Department have completed the TCOLE basic training on racial profiling. The main outline used to train the officers of Tarleton has been included in this report.

It is important to recognize that the Chief of the Tarleton State University Police Department has also met the training requirements, as specified by the Texas Racial Profiling Law, in the completion of the LEMIT program on racial profiling. The satisfactory completion of the racial profiling training by the sworn personnel of the Tarleton State University Police Department fulfills the training requirement as specified in the Education Code (96.641) of the Texas Racial Profiling Law.

C. Other cases

2.0 RACIAL PROFILING AND THE COMMUNITY

2.1 UNIT GOAL: The student will be able to identify logical and social arguments against racial profiling.
2.1.1 LEARNING OBJECTIVE: The student will be able to identify logical and social arguments against racial profiling.

A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer's intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism.

B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole.

C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers.

D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow's legitimate stop.

E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources.

3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION

3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.

3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.

A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements.

B. "DWB" – "Driving While Black" – a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.).

C. A typical traffic stop resulting from racial profiling

1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers.
2. The driver and passengers are questioned about things that do not relate to the traffic violation

3. The driver and passengers are ordered out of the vehicle
4. The officers visually check all observable parts of the vehicle
5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside
6. The driver is asked to consent to a vehicle search – if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)

3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.

A. Drug courier profile (adapted from a profile developed by the DEA)
   1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
   2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
   3. Vehicle is rented
   4. Driver is a young male, 20-35
   5. No visible luggage, even though driver is traveling
   6. Driver was over-reckless or over-cautious in driving and responding to signals
   7. Use of air fresheners

B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.

A. Thinking about the totality of circumstances in a vehicle stop

B. Vehicle exterior
   1. Non-standard repainting (esp. on a new vehicle)
   2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
   3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
   4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)

C. Pre-stop indicators
   1. Not consistent with traffic flow
   2. Driver is overly cautious, or driver/passengers repeatedly look at police car
   3. Driver begins using a car- or cell-phone when signaled to stop
   4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

D. Vehicle interior
1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

Analysis and Interpretation of Data
Analysis

In order to understand the analysis provided in this report, it is imperative that the evolution of the Texas Racial Profiling Law and its requirements, is discussed. That is, in 2001, the Texas legislature passed Senate Bill 1074 which became the Texas Racial Profiling Law. Thus, the law came into effect on January 1, 2002 and required all police departments in Texas, to collect traffic-related data and report this information to their local governing authority by March 1st of each year. In 2009, the racial profiling law was modified to include the collection and reporting of all motor vehicle related contacts where a citation was issued or arrest made. In addition, the modification to the law further requires that all police officers indicate whether or not they knew the race or ethnicity of the individual before detaining them. Further, it was required that agencies report motor vehicle related data to their local governing authority and to the Texas Commission on Law Enforcement (TCOLE) by March 1st of each year. The purpose in collecting and presenting this information is to determine if police officers in a particular municipality are engaging in the practice of racially profiling minority motorists.

The Texas Racial Profiling Law also requires police departments to interpret motor vehicle-related data. Even though most researchers would probably agree with the fact that it is within the confines of good practice for police departments to be accountable to the citizenry while carrying a transparent image before the community, it is very difficult to determine if individual police officers are engaging in racial profiling, from a review and analysis of aggregate/institutional data. In other words, it is challenging for a reputable researcher to identify specific “individual” racist behavior from aggregate-level “institutional” data on traffic or motor vehicle-related contacts.

As stated previously, in 2009, the Texas Legislature passed House Bill 3389, which modified the Racial Profiling Law by adding new requirements; this took effect on January 1st, 2010. These changes included, but are not limited to, the definition of a contact to include motor vehicles where a citation was issued or an arrest made. In addition, it required police officers to indicate if they knew the race or ethnicity of the individual before detaining them. Also, the 2009 law required adding "middle eastern" to the racial and ethnic category and submitting the annual data report to TCOLE before March 1st of each year.

In 2017, the Texas Legislators passed H.B. 3051 which removed the Middle Eastern data requirement but standardized the racial and ethnic categories relevant to the individuals that came in contact with the police. In addition, the Sandra Bland Act (S.B. 1849) was passed and became law. Thus, the most significant legislative act in Texas history regarding data requirements on law enforcement contacts, became law and took effect on January 1, 2018. The Sandra Bland Act not only requires the extensive collection of data relevant to police motor vehicle contacts, but it also mandates for the data to be analyzed while addressing the following:
1. A comparative analysis of the information compiled (under Article 2.133):
   a. Evaluate and compare the number of motor vehicle stops, within
      the applicable jurisdiction, of persons who are recognized as racial
      or ethnic minorities and persons who are not recognized as racial
      or ethnic minorities;
   b. Examine the disposition of motor vehicle stops made by officers
      employed by the agency, categorized according to the race or
      ethnicity of the affected persons, as appropriate, including any
      searches resulting from stops within the applicable jurisdiction;
   c. Evaluate and compare the number of searches resulting from
      motor vehicle stops within the applicable jurisdiction and whether
      contraband or other evidence was discovered in the course of
      those searches.

2. Information related to each complaint filed with the agency alleging that
   a peace officer employed by the agency has engaged in racial profiling.

In an effort to comply with The Texas Racial Profiling/Sandra Bland Law, the Tarleton
State University Police Department commissioned the analysis of its 2018 contact data. Thus,
two different types of data analyses were performed. The first of these involved a careful
evaluation of the 2018 motor vehicle-related data. This particular analysis measured, as required
by the law, the number and percentage of Whites, Blacks, Hispanics or Latinos, Asians and
Pacific Islanders, Alaska Natives and American Indians (Middle Easterners and individuals
belonging to the “other” category, as optional categories), that came in contact with the police in
the course of a motor vehicle related contact, and were either issued a ticket, citation, warning
were issued or an arrest was made. Also, included in this data were instances where a motor
vehicle contact took place for an alleged violation of the law or ordinance. The Tier 2 data
analysis included, but was not limited to, information relevant to the number and percentage of
contacts by race/ethnicity, gender, reason for the stop, location of stop, searches while indicating
the type of search performed, result of stop, basis of an arrest and use of physical force resulting
in bodily injury,

The additional data analysis performed was based on a comparison of the 2018 motor
vehicle contact data with a specific baseline. When reviewing this particular analysis, it should
be noted that there is disagreement, in the literature, regarding the appropriate baseline to be used
when analyzing motor vehicle-related contact information. Of the baseline measures available,
the Tarleton State University Police Department opted to adopt, as a baseline measure, the Fair
Roads Standard. This particular baseline is based on data obtained through the U.S. Census
Bureau (2010) relevant to the number of households that have access to vehicles while
controlling for the race and ethnicity of the heads of households.

It is clear that census data presents challenges to any effort made at establishing a fair and
accurate racial profiling analysis. That is, census data contains information on all residents of a
particular community, regardless of the fact they may or may not be among the driving
population. Further, census data, when used as a baseline of comparison, presents the challenge
that it captures information related to city residents only. Thus, excluding individuals who may have come in contact with the Tarleton State University Police Department in 2018 but live outside city limits. In some cases, the percentage of the population that comes in contact with the police but lives outside city limits represents a substantial volume of all motor vehicle-related contacts made in a given year.

Since 2002, several civil rights groups in Texas expressed their desire and made recommendations to the effect that all police departments should rely, in their data analysis, on the Fair Roads Standard. This source contains census data specific to the number of “households” that have access to vehicles. Thus, proposing to compare “households” (which may have multiple residents and only a few vehicles) with “contacts” (an individual-based count). This, in essence, constitutes a comparison that may result in ecological fallacy. Despite this, the Tarleton State University Police Department accepted the recommendation to utilize this form of comparison (i.e., census data relevant to households with vehicles) in an attempt to demonstrate its “good will” and “transparency” before the community. Thus, the Fair Roads Standard data obtained and used in this study is specifically relevant to Stephenville.

Tier 2 (2018) Motor Vehicle-Related Contact Analysis

When analyzing the enhanced Tier 2 data collected in 2018, it was evident that most motor vehicle-related contacts were made with males and most of the contacts were made with White drivers. This was followed by Hispanic and Black drivers. In most instances, police officers report not knowing the race or ethnicity prior to the stop. Further, they cite the primary reason for the stop to have been a “moving traffic violation”. This was followed by “vehicle traffic violation”.

In 2018, most of the contacts made took place in city streets. The Tarleton State University Police Department cites that most contacts did not result in a search. Of those searches made, all were based on probable cause. In addition, contraband was found as a result of most searches. Of the contraband found, in most instances, drugs were cited as the most frequent contraband found.

The data also shows that the majority of stops resulted in written warnings. This was followed by “citations”. When an arrest was made, the most frequent reason provided was a violation of the penal code. Also, none of the contacts resulted in the use of physical force which caused bodily injury.

Comparative Analysis

The data analysis of motor vehicle contacts to the census data relevant to the number of “households” in Stephenville who indicated, in the 2010 census, that they had access to vehicles, produced interesting findings. Specifically, the percentage of Blacks and Hispanics that came in contact with the police was higher than the percentage of Black and Hispanic households in Stephenville that claimed, in the 2010 census, to have access to vehicles. With respect to Whites, a lower percentage of contacts were detected. That is, the percentage of White drivers
that came in contact with the police in 2018 was lower than the percentage of White households in Stephenville with access to vehicles.

The analysis of the searches performed shows that most searches produced contraband. This is above national law enforcement trends. In addition, of those searches that produced contraband, all of them involved White contacts.

Summary of Findings

The most recent Texas Racial Profiling Law requires that police department perform data audits in order to validate the data being reported. Consistent with this requirement, the Tarleton State University Police Department has engaged del Carmen Consulting, LLC in order to perform these audits in a manner consistent with normative statistical practices. As shown in table 7, the audits performed have shown that the data is valid and reliable. Further, as required by law, this report also includes an analysis on the searches performed. This analysis includes information on whether contraband was found as a result of the search while controlling for race/ethnicity. The search analysis demonstrates that the police department is engaging in search practices consistent with national trends in law enforcement.

While considering the findings made in this analysis, it is recommended that the Tarleton State University Police Department should continue to collect and evaluate additional information on motor vehicle contact data (i.e., reason for probable cause searches, contraband detected) which may prove to be useful when determining the nature of the contacts police officers are making with all individuals.

As part of this effort, the Tarleton State University Police Department should continue to:

1) Perform an independent analysis on contact and search data in future years.

2) Commission data audits in 2019 in order to assess data integrity; that is, to ensure that the data collected is consistent with the data being reported.

The comprehensive analysis of the data included in this report demonstrates that the Tarleton State University Police Department has complied with the Texas Racial Profiling Law and all of its requirements. Further, the report demonstrates that the police department has incorporated a comprehensive racial profiling policy, currently offers information to the public on how to file a compliment or complaint, commissions quarterly data audits in order to ensure validity and reliability, collects and commissions the analysis of tier 2 data, and ensures that the practice of racial profiling is not tolerated.
