NIST Control Family – Identification and Authentication

CONTROL NUMBER	CONTROL NAME	PRIORITY	REVISION DATE	NEXT SCHEDULED REVIEW DATE
IA-8	Identification and Authentication (Non-Organizational Users)	P1	4/15/2020	4/15/2021

I. Statement

Tarleton State University information system uniquely identifies and authenticates non-organizational users (or processes acting on behalf of non-organizational users).

II. Applicability

This Control applies to all Tarleton network information resources. The intended audience for this Control includes all information resource owners, custodians, and users of information resources.

III. Risk Statement

Unauthenticated and/or unauthorized users access networks by exploiting vulnerabilities in external connections.

IV. Implementation

The Tarleton State University information system uniquely identifies and authenticates non-organizational users (or processes acting on behalf of non-organizational users). Non-organizational users (guests) are subject to authorization to information systems prior to access.
