NIST Control Family – Access Control

CONTROL NUMBER	CONTROL NAME	PRIORITY	REVISION DATE	NEXT SCHEDULED REVIEW DATE
AC-19	Access Control for Mobile Devices	P1	4/15/2020	4/15/2021

I. Statement

Tarleton State University shall establish usage restrictions, configuration requirements, connection requirements, and implementation guidance for organization-controlled mobile devices, whether owned by the state organization or the employee.

II. Applicability

This Control applies to all Tarleton network information resources. The intended audience for this Control includes all information resource owners, custodians, and users of information resources.

III. Risk Statement

Mobile computing and teleworking expose systems and information to exploitable vulnerabilities.

IV. Implementation

Connection of mobile devices to Tarleton's physical or secured network must be authorized by the University. IT must monitor for unauthorized connections of mobile devices.
