NIST Control Family – Contingency Planning

CONTROL NUMBER	CONTROL NAME	PRIORITY	REVISION DATE	NEXT SCHEDULED REVIEW DATE
CP-2	Contingency Plan	P1	4/15/2020	4/15/2021

I. Statement

Tarleton State University is responsible for developing, distributing, coordinating, reviewing, updating, communicating, and protecting a contingency plan.

II. Applicability

This Control applies to all Tarleton network information resources. The intended audience for this Control includes all information resource owners, custodians, and users of information resources.

III. Risk Statement

Critical activities are not recovered rapidly at the time of a disruption since the organization has not categorized its activities according to their priority for recovery.

IV. Implementation

The chief information security officer shall publish a comprehensive information system contingency plan and disaster recovery plan for university information resources that satisfies the requirements of this control. Specific information systems with additional system-specific requirements will have a documented IT contingency plan as part of the system security plan.
