NIST Control Family – Media Protection

CONTROL NUMBER	CONTROL NAME	PRIORITY	REVISION DATE	NEXT SCHEDULED REIEW DATE
MP-2	Media Access	P1	4/15/2020	4/15/2021

I. Statement

Tarleton State University ensures proper control and protection of computer media to safeguard the security of the University's data. This includes data present on local system hard-drives, servers or external media such as tapes, CDs or disk drives.

II. Applicability

This Control applies to all Tarleton network information resources. The intended audience for this Control includes all information resource owners, custodians, and users of information resources.

III. Risk Statement

Data stored on removable computer media is damaged or disclosed due to ineffective handling procedures.

IV. Implementation

Information resource owners are responsible for controlling access to, and maintaining appropriate handling and storage procedures for, storage media entrusted to their care.
