NIST Control Family – System and Service Acquisition

CONTROL NUMBER	CONTROL NAME	PRIORITY	REVISION DATE	NEXT SCHEDULED REVIEW DATE
SA-9	External Information System Services	P1	4/15/2020	4/15/2021

I. Statement

Tarleton requires that providers of external information system services comply with organizational information security requirements and employ appropriate security controls in accordance with applicable federal laws, Executive Orders, directives, policies, regulations, standards, and guidance.

II. Applicability

This Control applies to all Tarleton network information resources. The intended audience for this Control includes all information resource owners, custodians, and users of information resources.

III. Risk Statement

Services, reports and records provided by a third party are not consistently monitored and reviewed by management.

IV. Implementation

Tarleton requires that providers of external information system services employ adequate security controls in accordance with these standards and monitors security control compliance.
