CONTROL NUMBER	CONTROL NAME	PRIORITY	REVISION DATE	NEXT SCHEDULED REVIEW DATE
SC-22	Architecture and Provisioning for Name Address Resolution Service	P1	4/15/2020	4/15/2021

**I. Statement**

The information systems that collectively provide name/address resolution service for the University are fault-tolerant and implement internal/external role separation.

**II. Applicability**

This Control applies to all Tarleton network information resources. The intended audience for this Control includes all information resource owners, custodians, and users of information resources.

**III. Risk Statement**

Information systems fail due to improper fault tolerant or redundant architectures.

**IV. Implementation**

All components of the University's domain name provisioning and resolution services have redundancy in place.
