NIST Control Family – System and Communication Protection

CONTROL NUMBER	CONTROL NAME	PRIORITY	REVISION DATE	NEXT SCHEDULED REVIEW DATE
SC-7	Boundary Protection	P1	4/15/2020	4/15/2021

I. Statement

The information system monitors and controls communications at the external boundary of the information system and at key internal boundaries within the system.

II. Applicability

This Control applies to all Tarleton network information resources. The intended audience for this Control includes all information resource owners, custodians, and users of information resources.

III. Risk Statement

Computer connections and information flows breach access control policies as a result of inconsistencies with network routing configurations.

IV. Implementation

The information system monitors and controls communications at the external boundary of the information system and at key internal boundaries within the system.
