# The Power Of Cylance on Your Personal Devices

Cylance Smart Antivirus uses Cylance's patented mathematical approach, utilizing machine-learning techniques instead of reactive signatures and sandboxes to render malware, viruses, bots, and unknown future variants incapable of executing.

Tarleton students, faculty and staff have the opportunity to purchase Cylance at a discounted price giving them access to their own personal cloud console where they will have visibility and the ability to manage protection for up to 5 devices.

- **Check eligibility with Tarleton email address**
